

**AUDIO VIDEO CABLES**

**HDMI™**

Y.C. Cable incorporates High-Definition Multimedia Interface (HDMI™) technology. This cable is the first industry-supported, uncompressed, all-digital audio/video interface. HDMI™ provides an interface between any audio/video source, such as a set-top box, DVD player, and A/V receiver and an audio and/or video monitor, such as a digital television (DTV). HDMI™ supports standard, enhanced, or high-definition video, plus multi-channel digital audio on a single cable. It transmits all ATSC HDTV standards and supports 8-channel digital audio, with bandwidth to spare to accommodate future enhancements and requirements. HDTV uses less than 1/2 of HDMI™'s available 5 Gbps bandwidth. With capacity to spare, HDMI™ can incorporate new technology advancements and capabilities long into the foreseeable future.

HDMI™ -to- HDMI™

- HIDMI-01M** 1meter
- HIDMI-02M** 2meter
- HIDMI-03M** 3meter
- HIDMI-05M** 5meter

HDMI™ -to-DVI

- HIDMI-DVI-01M** 1meter
- HIDMI-DVI-02M** 2meter
- HIDMI-DVI-03M** 3meter
- HIDMI-DVI-05M** 5meter

**PLENUM HIGH RESOLUTION VGA CABLE**

The latest in Plenum rated cable. Metal Hood. The outer jacket is made from plenum material for applications where fire resistance and low smoke characteristics are critical. 30AWG RGB 3 conductor, 8 conductor 26AWG, color gray.

Male-to-Male

- PV/UXGA-MM-25** 25'
